

224X

Type II Tape Noise-Reduction Unit

With the dbx 224X, your standard cassette or open reel tape recorder can perform at a level fully comparable to sophisticated PCM digital recording systems.

That is, with the dbx 224X, you can record and play back the full dynamic range of digital sound sources like Compact Discs as well as live music. You hear full dynamic range. You don't hear background hiss.

Other noise-reduction systems reduce tape hiss in limited areas of the audio frequency range. But the 224X reduces tape hiss by up to 40 dB across the entire audio frequency range.

And while dbx is not sensitive to the level mismatching problems of other
